Kerry Motor Works 110kWp

COMMERCIAL SOLAR

Solar energy is a key component of any sustainability strategy, helping businesses achieve energy independence and environmental responsibility.

Rising electricity and fuel costs pose significant challenges for Irish businesses. Installing a Commercial Solar Power System provides an effective solution to reduce electricity expenses.

BOTTOM LINE BENEFITS

- Environmental & Sustainability Leadership
- Immediate Cost Savings
- Accelerated Capital Allowance (ACA)
- Maximising the large roof space for beneficial cost savings
- High Investment Returns
- Reduced Carbon Emissions and Footprint
- A Visual Carbon Savings Statement
- Utilisation of existing roof areas to generate revenue
- No maintenance required
- Increase property value

ENERGY ASSESSMENT

At Solar Beo, we provide customized commercial solar proposals designed to help your business maximize savings and sustainability.

Our expert design engineers consider your electricity consumption profile, tariffs, existing service loads, and a comprehensive sustainability assessment of your building or facility.

Our detailed summary report includes:

- ✓ Projected System Yield
- ✓ Investment Return & Payback Periods
- ✓ Net Present Value Analysis

With clear, data-driven insights, we empower you to make informed investment decisions with confidence.

WHY CHOOSE SOLAR BEO

At Solar Beo, we believe in the power of solar energy to drive businesses towards a brighter, more sustainable future. With over 30 years of electrical contracting experience, our team of experts brings unmatched knowledge and expertise to every project. As a leading provider of solar energy solutions, we are committed to helping businesses harness the sun's potential, lower energy costs, and achieve true energy independence. Our deep industry experience ensures the delivery of reliable, high-performance solar solutions tailored to your unique needs.

AHMED ADEL

Lead Electrical Design Engineer

Ahmed leads the Engineering & Design team at Solar Beo. He joined in 2022, bringing over 15 years of experience in designing and managing large-scale utility projects globally.

OUR REFERENCE LIST

Our reference list reflects the extensive experience we have gained by working with a diverse range of commercial partners across various industries.

This broad expertise allows us to offer tailored solar solutions designed to meet the unique energy needs of your business.

Whether your goal is cost reduction, sustainability, or energy independence, we deliver customized systems that align with your specific requirements.

EXPERT SUPPORT FOR GRANTS, FUNDING & ESB NETWORKS APPLICATIONS

We guide you through the various grants and financial funding options available for your business, including SEAI, TAMS, and financing from financial institutions.

Our team has extensive experience in managing applications and administrative processes, ensuring a seamless experience.

Additionally, we assist with ESB Networks applications, helping you navigate grid connection requirements and approvals efficiently. With our expertise, you can maximize funding opportunities and streamline your transition to solar energy.

WE CAN HIGHLY RECOMMEND SOLAR BEO

Solar Beo have recently completed a PV project here at Glenilen Farm. Along with all the sustainability and energy saving advantages we can highly recommend Solar Beo as good value, efficient and of a very high work and safety standard. Their pre and post attention to detail was really good.

Alan Kingston, Glenilen Farm

WE ARE DELIGHTED WITH OUR INSTALLATION

We are delighted with our installation of our 50.6 kW PV Solar System and EV chargers by Solar Beo. From our initial consultation to the final setup, the team at Solar Beo provided an exemplary service, combining professionalism, expertise, and a genuine commitment to our energy goals. Our EV chargers are very popular with hotel guests for their ease of use and for our team as the system offers a user-friendly experience for our staff who liaise with users. Beyond the installation, Solar Beo's aftercare has been exceptional. Their team remain readily available to address any questions or concerns, offering support with the same level of professionalism they displayed throughout the installation process.

We highly recommend Solar Beo to anyone considering solar energy or EV charger installations.

Graham Fitzgerald, General Manager, Dingle Skellig Hotel

SOLAR BEO DELIVERED TOP-QUALITY SERVICE FROM START TO FINISH

Solar Beo delivered top-quality service from start to finish on our 75kWp commercial solar installation. Their knowledgeable and efficient team ensured minimal disruption to our operations. They also completed three domestic installations with the same professionalism and efficiency. A fantastic investment with a company we highly recommend!
